#### **What is Share Script**

Share Script is a screenwriting collaboration platform created for talented, passionate and dedicated screenwriters.

We aim to give screenwriters of any level the opportunity to work hand-in-hand with other talented writers and produce sensational screenplays. Doesn't matter if you are an experienced screenwriter, beginner or simply doing screenwriting on the side. Share Script is the place for you.

Our mission is to become one of the only collaborative screenwriting platforms which gives writers smooth and seamless access to fellow writers' ideas, concepts, perspectives, approaches, and so much more!

#### **The Challenge we aim to solve**

When you are new to screenwriting or doing screenwriting on the side, it can sometimes be really difficult to find the right opportunities for collaborating on great projects. The platform allows different types of writers to easily connect, share ideas and as a result produce great screenplays. It's a great chance for less experienced writers to collaborate and learn from those more experienced and for more experienced writers to offer their skills and expertise.

## **Why Share Script**

### **Collaborate**

The key to a great screenplay is a solid storyboard. The platform allows writers to get their great storyboards and ideas in front of other great writers, making collaborating on projects from start to finish seamless.

### **Build profile**

As an aspiring screenwriter, it can sometimes be hard to get the word out. Share Script allows you to build your profile by networking with hundreds of screenwriters, agents and producers, making yourself known in the industry.

### **Purchase**

Share Script also seamlessly bridges the gap between buyers and sellers of thrilling, captivating screenplays. Have a screenplay which you think may be worth a few quid? Why not identify its true worth by easily getting your work in front of agents, producers and even fellow screenwriters looking for the next big thing.
